

**Concluding conference of the NBSI workshop
“Frontiers in Theoretical Particle Physics”
August 16-18**

	Wednesday	Thursday	Friday
10.30-11.00	coffee	coffee	coffee
11.00-12.30	Quigg	Ooguri	Steinhardt
12.30-13.45	lunch	lunch	lunch
13.45-15.15	Marolf	Bern	Berenstein
15.15-15.30	coffee	coffee	coffee
15.30-17.00	Thorn	Lüscher	Ellis

- conference room: Auditorium A, Blegdamsvej
- morning coffee in the NBI canteen
- afternoon coffee in Auditorium C

Titles of talks

- Berenstein: Emergent geometry: towards a proof of the AdS/CFT correspondence
- Bern: The S-matrix reloaded: twistors, unitarity, gauge theory and gravity
- Ellis: TBA
- Lüscher: Numerical lattice QCD with light quarks
- Marolf: Observables in quantum gravity
- Ooguri: Comments on the string landscape
- Steinhardt: The origin, structure and future of the universe
- Thorn: Field/string duality
- Quigg: The coming revolutions in particle physics
